

Progressive Party Platform

We are the 99%

The primary purposes of the Progressive Party are to:

- 1) **Oppose the overreach of our oppressive governments**
- 2) **Reduce the influence of money on the electoral process**
- 3) **Limit the power and influence of large corporations**
- 4) **Expose the lies and propaganda spread by mainstream media and the “entertainment” industry**
- 5) **Support peace and end war and conflict on all levels**
- 6) **Protect the Constitution and our endangered freedoms**
- 7) **Support individual growth, small businesses and entrepreneurs, equality and fairness**

We are NOT focused on supporting a Presidential candidate in 2024. We are NOT looking for a savior. We are focused on taking back control of Congress by supporting independent candidates for Congress in the 2022 election and beyond.

The 2020 census will result in changes of many Congressional districts across the United States. Some states will gain additional representative districts and some states will lose districts. Other states may restructure (gerrymander?) their districts. The 2022 midterm elections will offer an amazing opportunity for “We The People” to fire all 435 incumbents and vote in new, better and more accountable representatives.

We are focused on organizing geographically along Congressional district boundaries in order to kick out the existing members of Congress and replace them with people who are dedicated to representing the will of “We The People” instead of doing the bidding of large corporations and wealthy donors.

The Progressive Party is unlike the other political parties in at least one very important way:

We do NOT want your money. We will NEVER ask you to make a donation, nor do we even have any way of accepting money from any donor whatsoever!

We are a 100% volunteer organization.

We understand that money has corrupted the political process in America and, rather than just talk about it, we are leading by example: We do not accept donations.

Also, we are NOT asking people to change their party affiliation or voter registration. The majority of Americans are already registered to vote as unaffiliated, Independent or no party preference.

We simply ask that you take the time to visit our website in order to learn more about what we stand for and what we will be doing in the upcoming months and years ahead to ensure peace, prosperity and freedom for all Americans.
